

Advantage Industrial Automation – Duluth Achieves ISO 9001:2015 Certification

Release: May 25, 2026

DULUTH, GA — Advantage Industrial Automation today announced that its Duluth, Georgia location has achieved ISO 9001:2015 certification, a globally recognized quality management standard that reflects the organization's commitment to consistency, continuous improvement, and customer satisfaction.

The certification validates the processes and systems in place at the Duluth facility, reinforcing Advantage's focus on delivering high-quality automation, controls, and engineering solutions to OEMs, system integrators, and industrial end users.

"Achieving ISO 9001:2015 certification is an important milestone for our Duluth team," said Daniel Menear, Logistics Manager and ISO Project Lead. "It reflects the discipline, expertise, and customer-first mindset that drives how we deliver solutions every day."

For customers, this certification provides added assurance that Advantage Industrial Automation operates with clearly defined processes, strong quality controls, and a continuous improvement framework that supports reliable project execution and long-term performance.

Advantage Industrial Automation has served industrial customers across the Southeast for more than three decades, helping organizations improve productivity, reduce downtime, and enhance system performance through tailored automation solutions.

The ISO 9001:2015 certification applies specifically to the Duluth, Georgia location for design solutions and components for industrial automation, servicing industries such as, but not limited to, food & beverage, consumer products, water & wastewater, energy, and material handling. The certificate is valid from May 25, 2026 until May 25, 2029. To view, click [HERE](#).
